Doc vAura030723

Aura12 is a stylish yet rugged weatherproof intercom system. It allows tenants to remotely control access to their building from the convenience of their phone. Installation is fast & simple. The two-way audio allows tenants to speak with visitors, while its one-way video protects the tenant's privacy. Aura12 delivers on both security & convenience.

Property Managers:

- Management Console to set up building tenants
- Cloud base Console for tenant management.
- Door camera access at all times.
- Facilitate package delivery process.

Tenants:

- Phone App to view & grant access remotely.
- Convenient Keyless entry.
- Create visitors QR codes.
- Receive calls from intercom on device of your choice.

Why Choose Aura12 ?

For Property Managers: Whoo intercom is the smart apartment video intercom which allows your tenants in a multi-family building to speak with their visitors in real-time and let them in with the push of a button.

For Tenants: Whoo intercom is the smart apartment video intercom which allows you to have total control of your visitors. You can grant them access remotely using your smart device, or send a QR code for easy visit access to the convenience of letting yourself in with the use of a keyless entry code.
