

WHOO.AI MOBILE VIDEO INTERCOM

THE SMARTER, SAFER, BETTER WAY TO ACCESS YOUR FRONT DOOR.

CONGRATULATIONS, AND WELCOME TO THE WHOO.AI FAMILY.

We are so happy that you have chosen Whoo.ai as your access control solution. To ensure a seamless one day transition, complete the following steps *before* installation.

Your building needs internet access

Verify that you have a stable and reliable internet connection in place at your front entrance.

Register your system administrator

Email info@whoo.ai with the name, title and email address of the account administrator for account setup.

Compile your resident information

Arrange a list of resident names, email addresses, and phone numbers and email it to info@whoo.ai.

Once your Whoo.ai Mobile Intercom is installed your router connection will need to be configured. This is a easy step and we will help you with this.
